

## **AMENDMENTS TO THE CLAIMS**

This listing of claims will replace all prior versions and listings of claims in the application.

Claims 1-15 (Canceled).

16. (previously presented) A door trim panel assembly for mounting to a doorframe structure of a motor vehicle, comprising:

a hardware carrier having a body including a front and back surface; and

a seal molded to the front surface and having a non-linear configuration, the non-linear configuration being defined by opposing top and bottom surfaces of the seal and opposing first and second side walls of the seal, the first and second side walls connecting the top and bottom surfaces, the bottom surface being molded to the front surface of the carrier and the top surface being planar for contacting the doorframe structure to seal the carrier thereto.

17. (original) The door trim panel assembly of claim 16 further comprising a door trim panel, the back surface of the hardware carrier being coupled to the door trim panel.

18. (original) The door trim panel assembly of claim 16 wherein the non-linear configuration includes at least one of a substantially repeating v-shaped, s-shaped, and o-shaped configuration.

19. (original) The door trim panel assembly of claim 16 wherein the non-linear configuration further comprises at least a first and second non-linear configuration, one side of the seal including the first non-linear configuration and an opposing side of the seal including the second non-linear configuration.

20. (original) The door trim panel assembly of claim 16 wherein the seal comprises a thermoplastic elastomer and the body comprises a thermoplastic material such that the seal bonds to the body.
